

Containerize The App

Team ID	PNT2022TMID46709
Project Name	News tracker applications

The screenshot shows a VS Code editor with a terminal window open. The terminal is running the command `Docrify docker build -t my_flask .` and displaying the output of the Docker build process. The output shows the build steps, including loading the Dockerfile, transferring the context, and installing dependencies. The build is successful, and the image is tagged as `my_flask`.

```
