Welcome, shakthivel!

To get up and running quickly, please follow the steps outlined below.

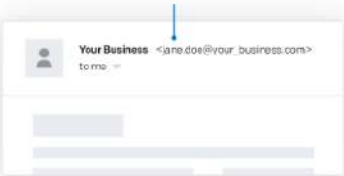
Send your first emails with Twilio SendGrid

Create a sender identity

Before sending email, you'll need to create a sender identity. There are two ways to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

Create a Single Sender | Authenticate a domain instead

Your sender identity is the "from" email address your recipients will see in their inbox. Learn more about this.



Send your first email

Please create a sender identity before sending your first email.
